TCG Lifesciences Donates for Japan Earthquake and Tsunami

The 'Japan Relief Fundraising Campaign' initiative by TCG Lifesciences last month saw the TCGLS community earnestly coming forward and participating in the campaign. We are delighted to share with you that TCGLS matched the quantum of individual cash donations as part of its CSR campaign; and the proceeds have been handed over to Oxfam India on May 3, 2011. Oxfam India is fervently carrying out relief and rehabilitation work in Japan.

All the individuals who have donated for this noble cause are highly admirable to us and this campaign would not have been a success without their help and encouragement. Together we wish for Japan to recover from the tragedy and emerge as a stronger nation than ever in the future.

Once again we thank all the contributors for joining hands in this fundraising campaign.

TCG Lifesciences employees presenting Japan Relief donation cheques to the Oxfam India representative, Mr. Ranjan Bhattacharjee.
